to the City Hall, but, fortunately for the city, Mr. A. L. Barbur succeeded Mr. Dieck as Commissioner of Public Works last July and at once reduced the force about 55 per cent. The City Council had put Holton's efficiency (?) code in the scrap heap two years previously, but Dieck stuck to it as far as he could, till the people got a shot at him and then he joined the scrap heap. Dieck was in the "also ran" class in the late city election.

That I was persona non grata to Dieck and the New York Fakirs does not affect the reliability of what I am writing to you. I still hold the civil service place of Civil Engineer which I held when Dieck came, while he was here and after he went. If you care to enquire, I will refer you to Mr. Eugene Shelby, a secretary in your Mayor's office.

Dieck selected, as per advice of the N. Y. Fakirs, a city engineer and a power engineer. Then he and these engineers planned the Montavilla sewer, a reinforced cement pipe 7 feet in diameter. It was laid in a trench twenty-odd feet deep, and when the back filling was in the sewer went down. Finally it was realigned and some \$30,000 worth of concrete was used to make it strong enough to support the back filling. Under court decisions he could not allow the contractor for more than about half of this sum as extras but he allowed him to put in a lot of faulty 7-foot pipe that had been previously condemned by his own inspectors. A great scandal ensued, and the city employed outside engineers to straighten the matter out.

Later he and these same city and sewer engineers got up plans to rebuild the Tanner Creek sewer, a \$300,000 job. Bids were 30 per cent above his estimate. He assured the council that his estimate was right, his city and sewer engineers reiterated that the estimate was right. Other bids were called for. They were not materially less. Dieck again asserted the certain correctness of his estimate, and his pet satellites did likewise. The bids were rejected and new ones called for. These were again about 30 per cent above Dieck's estimate. Dieck stuck to his estimates. The contractors said they were far from correct. The city council employed three outside engineers to sift the matter. They reported that the work could not be done with only 5 per cent profit at less than the amount of the bid. The contract was let at the bid.

Property owners wanted the Columbia slough (something of a river) made a sewage channel, same as the Willamette River is. When Dieck

came in he said he would parallel the slough with an immense sewer, although it might cost \$3,000,000 as against \$500,000 for the former plan. The property owners fought him off till the election and then "scrapped" him.

These are matters of record. There are others; and there are no strings on this letter.

Very truly yours,

W. S. CHAPMAN,

Box 686.

Report of Supervisor Gallagher on Appropriation of \$60,000 for Street Work.

The following report and resolution heretofore presented by Supervisor Gallagher was taken up.

To the Honorable Board of Supervisors—
Gentlemen:

As a member of the Finance Committee, I deem it my duty to report to you that at the meeting of the Finance Committee on Friday, September 21st, we had before us a communication from the Board of Public Works making a very urgent request for an additional appropriation in the sum of \$100,000 for the purpose of repairs, reconstruction and paving of streets.

Mr. James McElroy, the newly appointed Superintendent of Street Repairs, was before us, and stated that at present his fund was somewhat overdrawn, and to such an extent was that true that he felt compelled to seriously consider the laying off of additional men in order that they would not be drained to a point of danger. He earnestly pleaded with your committee for the appropriation named above, and stated that it was his intention, if he received our co-

operation, to put not only the streets on the Board of Public Works' list in shape, but give a great many other streets that were now in very bad shape, much needed attention at once, and, if given it, would remain good for years, but which, if neglected, would go into very bad condition and require a great deal of additional funds for their reconstruction.

I have not changed my views on the subject-matter of the sum allowed in the Budget to the Board of Public Works, and am of the opinion that, with the exercise of rigid economy, there is a sufficient fund there to meet the ordinary needs of the department. However, it has become apparent to me that, while the Board of Public Works may do all the work contemplated by your Finance Committee, there would still remain, above and beyond that consideration, a street condition which is a source of annoyance, complaint and, in part, even danger.

I also feel that Mr. McElroy is entitled to a fair opportunity to show the people of San Francisco his worth, and is entitled at the hands of this Board to a chance to make a showing worthy of the position which he holds. I do not think there is any member of the Board but what has great confidence in his ability, and shares the belief in the above statement. There will be funds sufficient on hand to meet this situation; at least, I am of the opinion that there will be a sum nearly equal to the amount asked by the Board of Public Works, and, while it is impossible to meet their wishes fully in the matter, I think it proper to respectfully recommend that the Board of Public Works be allowed the sum of \$60,000 additional (which, I think, will fairly meet the situation) for the item of repairs, reconstruction and paving of streets. While it may not be possible to appropriate this money at once, still, I think, if the Board of Public Works is guaranteed the sum, this Board of Supervisors will have cause to congratulate itself upon giving Mr. McElroy a full and fair opportunity.

Respectfully submitted,

ANDREW J. GALLAGHER.

Member of the Finance Committee of the Board of Supervisors.

Providing \$60,000 for Street Work.

Resolution No. — (New Series), as follows:

Resolved, That the sum of sixty thousand dollars (\$60,000) be and the same is hereby set aside and appropriated out of General Fund, 1917-1918, to the credit of Budget Item No. 387, for repairs, reconstruction and paving of streets.

Substitute.

Supervisor Gallagher offered the fol-

lowing resolution as a substitute for the foregoing:

Resolved, That the sum of \$20,000 be and the same is hereby set aside out of the Urgent Necessities Fund, Budget Item No. 32, to the credit of Budget Item No. 387 for repairs, reconstruction and paving of streets.
Statement of Chairman of Finance Committee.

Upon request of Supervisor Gallagher, Supervisor Power made the following statement as to the condition of the General Fund:

Mr. Chairman: I don't know exactly at this time just how much available money there might be for this city. We do know of an apparent \$82,000, but as the members here know, there was appropriations of \$12,000 and a further appropriation last week of \$3810—increase of salaries for engineers, and \$60,000 for school teachers. That would leave approximately \$6000 or \$7000 in the fund.

Of course, the passing of the resolutions last week was not the best financing in the world—circumstances brought that about. Not having that leeway now of \$82,000, we are confronted with the possibility that we may lose \$200,000 or \$300,000 in liquor licenses. Although each quarter shows up well, there is no telling what the results will be if the President insists on the one-half mile limit law. In case the saloons were closed up, the liquor licenses would not be renewed. If we lose that revenue from liquor licenses, we would have to enact other license ordinances.

Gentlemen, you expect surpluses in departments. There is an apparent surplus in the Police Department, but outside that you cannot figure anything. I might add for your information that in keeping with suggestion made a week or so ago, there might be some money taken from the sale of lands to Southern Pacific Company, but the action of the Board last week precluded that for four weeks.

Referred.

Whereupon, the foregoing matter was, on motion of Supervisor Welch, referred to Streets and Finance Committee by the following vote:

Ayes—Supervisors Brandon, Deasy, Gallagher, Hayden, Hocks, Hynes, Kortick, Lahaney, McLeran, Nelson, Nolan, Suhr, Walsh, Welch—14.

Noes—Supervisors Mulvihill, Nolan—2.

Such deed shall be delivered within 30 days from and after receipt of the deed from the party of the first part called for in paragraph 1 of this agreement. The party of the second part further agrees that if the California Pacific Title Insurance Company should require it, it will permit the party of the first part after acquiring said land to quiet title by appropriate action and decree against the party of the second part.

4. This agreement is intended to provide for conveyance to the party of the second part the necessary land in South San Francisco Block No. 112, to enable it to complete the proposed Hunters' Point Boulevard according to

Whereupon, Supervisor Nelson moved that out of respect to the memory of Judge J. M. Sewell, whose funeral was about to take place, that the Board take a recess until 3 p. m.

Thereupon Supervisor Hayden presented the following resolution, which was adopted by rising vote:

In Memory of Hon. Jas. M. Seawell.

Resolution No. 14960 (New Series), as follows:

Whereas, The Board of Supervisors of the City and County of San Francisco would voice its unanimous respect for the memory of James M. Seawell, a faithful servant of the people as judge of the Superior Court; a man of native ability, he improved unusual opportunities for fitting himself for his calling and became thoroughly conversant with law, in its fundamental principles and in its application as an agent for justice. Before he was elected judge he was an accomplished lawyer, using his gifts with a high sense of honor. Elected to the bench in the city of his adoption, he early established an enviable reputation for impartiality, soundness of judgment and absolute probity. As time passed he was more and more valued and revered. He was especially trusted in decisions involving municipal matters, and his

opinion was regarded as decisive. He was generally sustained when appeals were taken, and in rare instances were his judgments reversed by the higher courts.

So general was the confidence in which he was held that nomination and re-election followed as a matter of form, and any sort of canvass or solicitation was wholly unnecessary.

No man in the community was more generally or more thoroughly respected, and his long career of lofty service will long remain as a high tradition of the bar and the bench of San Francisco.

In token of our sense of loss and our deep regret, be it

Resolved, That when this Board adjourns, it does so out of respect to the memory of Judge James M. Seawell, distinguished citizen, exemplary man, able lawyer and ideal judge.

Adopted unanimously under suspension of the rules.

Recess.

Whereupon, in accordance with motion of Supervisor Nelson, the Board took a recess until 3 p. m.

Reassembled.

In Board of Supervisors, Monday, October 22, 1917, 3 p. m.

The Board of Supervisors reassembled at 3 p. m., the members above noted being in attendance.

His Honor Mayor Rolph being absent, Supervisor Power presided.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Liberty Loan Parade.

The following were presented and read by the Clerk:

Mayor's Office, San Francisco, Cal.,
October 20, 1917.

To the Officers and Department Heads,
City and County of San Francisco.
Gentlemen:

President Wilson has asked San Francisco to make an immense demonstration on October 24th in the interest of the Liberty Loan.

Complying with this direct order from Washington, the Liberty Loan Committee of San Francisco has planned the greatest military pageant

and citizens' parade of the city's history.

Features supplied by the Army and Navy and Marine Corps will include the greatest body of fighting men that ever marched the streets of San Francisco. The men of the Officers' Training Camp at the Presidio will make their first public appearance and with the soldiers, sailors and marines should be accorded a reception never before equaled in our city.

In addition to the men of the armed forces of the United States, all citizens who have bought or applied for Liberty Bonds, or who are members of organizations which have purchased them, will march through the city's streets as a demonstration of their loyalty, their enthusiasm of the Liberty Loan, and in honor of the direct request of the President of the United States.

Every person in the employ of the city government who has purchased or applied for a Liberty Bond is invited to march in this parade. Each department will march as a unit of the Municipal Division and should provide proper signs, banners or transparencies identifying it and if possible expressing some brief patriotic sentiment. Both men and women are requested to march.

Heads of departments are requested to report the approximate number of marchers before 4:00 o'clock on Monday afternoon in order that space in the parade may be assigned by the Liberty Loan Parade Committee according to the strength of the municipal contingent. Please make report to the Mayor's office.

The honor of the city departments is involved in this parade. Every person who has bought a bond should feel himself or herself obligated to participate. Every employee who can afford to purchase a bond should make arrangements forthwith so to do, and the head of every department is requested earnestly to solicit his assistants to support this loan to the extent of their ability and to make the best possible showing in the demonstration on the 24th.

The parade will march at 2:00 o'clock from the foot of Market street to the City Hall, and notices will be sent by the committee giving the point of formation for the Municipal Division.

Very respectfully,

JAMES ROLPH, JR.,
Mayor.

Paul T. Carroll,
Chairman Liberty Loan Parade
Committee.

W. L. Hughson,
Chairman Municipal Participation.

You are cordially invited to participate in the parade and to assist Major-General Murray in the review of his troops. Automobiles will be provided for you and will meet you at such place as you may designate at one o'clock p. m. on that day.

On receipt of this letter, kindly send your acceptance of this invitation to Mr. Paul T. Carroll, Chairman of the Parade Committee, addressed to No. 430 California street, which is the headquarters of the Liberty Loan Committee.

Whereas, Pursuant to the proclamation of President Wilson and Governor Stephens, his Honor Mayor Rolph has issued an appeal to the heads of all offices and departments urging them to permit every person in the employ of the city government who has purchased or applied for a Liberty Bond to march in the Liberty Day Parade which has been arranged by the citizens of San Francisco as a demonstration of their loyalty, their enthusiasm of the Liberty Loan, and in honor of the direct request of the President of the United States: therefore be it

Board of Supervisors.

Gentlemen: Your Public Welfare and Publicity Committee begs leave to report that several conferences have been held with the persons interested in the new City Planning Ordinance. Supervisor Welch presented:
Resolution No. 15002 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points herein-

after specified and at the elevations above City base, as hereinafter stated, in accordance with Resolution No. 55837 (Second Series) of the Board of Public Works adopted October 31, 1917, and written recommendation of said board, filed November 1, 1917, to-wit:

On Hollister avenue, between the easterly line of Griffith street and Railroad avenue; on Ingerson avenue, between Gilroy street and Railroad avenue; on Jamestown avenue, between the easterly line of Ingalls street and Railroad avenue; on Key avenue, between Railroad avenue and a line parallel with Jennings street, and 325 feet easterly therefrom; on LeConte avenue, between Railroad avenue and a line parallel with Jennings street and 225 feet easterly therefrom; on Griffith street, between the northerly line of Hollister avenue and Ingerson avenue; on Hawes street, between the northerly line of Hollister avenue and Jamestown avenue; on Ingalls street, between Gilman avenue and Jamestown avenue; on Jennings street between Gilman avenue and Meade avenue.

The Board of Supervisors hereby declares that no assessment district is necessary, as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

Extension of Time.

Resolution No. 15003 (New Series), as follows:

Resolved, That the State Improvement Company is hereby granted an extension of ninety days' time from and after November 8, 1917, within which to complete contract for the improvement of Santiago street, between Twenty-third and Twenty-fourth avenues.

This *fifth* extension of time is granted upon the recommendation of the Board of Public Works for the reason that there is a large amount of grading to be done and this work has just been commenced. When this contract was let this work was not accessible but was dependent upon the completion of Twenty-fourth avenue between Santiago and Taraval

streets. This, again, was delayed by the fact that all rock for surfacing was delivered to the Federal government for fortifications, but the work was finally completed in July, 1917. The petitioner is at work on Twenty-third and Twenty-second avenues between Rivera and Santiago, and has contracts covering Santiago street between Twenty-second and Twenty-third avenues. Some of the material to be graded from Santiago street will be taken in on private property between Twenty-second and Twenty-fourth avenues and the remainder will be hauled over Twenty-fourth avenue.

There seems to be no disposition on the part of contractor to delay the work.

Adopted by the following vote:

Ayes—Supervisors Brandon, Deasy, Hayden, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—15.

Absent—Supervisors Gallagher, Hilmer, Wolfe—3.

This *second* extension of time is granted upon the recommendation of the Board of Public Works for the reason that the grading under this contract was very heavy, but has now been completed and the sewer constructed. The construction of concrete curbs is now under way.

Adopted by the following vote:

Ayes—Supervisors Brandon, Deasy, Hayden, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—15.

Absent—Supervisors Gallagher, Hilmer, Wolfe—3.

This *first* extension of time is granted upon the recommendation of the Board of Public Works, for the reason that no work has been done under this contract, the reason for which is given as inability to secure

granite curbing; but promise is made by the contractor that if given the extension the work will be completed within the time requested.

Adopted by the following vote:

Ayes—Supervisors Brandon, Deasy, Hayden, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—15.

Absent—Supervisors Gallagher, Hilmer, Wolfe—3.

Also, Resolution No. 15006 (New Series), as follows:

Statement of votes cast at Special Election for School Bonds held in the

City and County of San Francisco, October 30, 1917, showing 37,619 votes in favor and 7,485 against.

Disposition of Moneys Received From Sale of Lands to Southern Pacific Company.

The following was presented by his Honor the Mayor and read by the Clerk:

To the Honorable Board of Supervisors of the City and County of San Francisco.
Gentlemen:

I herewith submit a proposed ordinance, providing for the disposition of the sum of \$392,073.30 received by the City and County of San Francisco as partial consideration of the exchange and sale of lands held by the city in South Beach for lands owned by the Southern Pacific at the foot of Van Ness avenue.

I strongly urge the passage of the ordinance for the reason that the city was in receipt of the sum of \$18,000 per annum from the Southern Pacific Company under a lease, and, in my opinion, the investment of the money received from that company for the lands is advisable to the end that the City and County may realize an income from the purchase of municipal bonds to offset the loss of rent received from the Southern Pacific Company.

This money should be set aside in a separate fund for the purpose indicated in the proposed ordinance, viz., the purchase or retirement of municipal bonds, secure from appropriation for other purposes.

The exchange of lands between the City and the Southern Pacific Company had a two-fold object; first, to provide for the people a park where aquatic sports could be indulged in, and second, to permit the Southern Pacific Company to carry out its plans for an enlarged freight depot to provide for the ever-increasing commercial needs of the City. It was not intended that the money received by the City in the transaction should be expended in the manner that money raised from taxation should be spent. This money should be appropriated only in the manner indicated in the proposed ordinance which I submit

herewith, and I sincerely hope that your Honorable Board will pass it.

Respectfully,

JAMES ROLPH, JR.,
Mayor of the City and County of San Francisco.

Motions.

Supervisor McLeran moved to lay over one week.

Supervisor Lahaney moved as an amendment that matter be referred to *Judiciary Committee*.

Supervisor Nelson moved as an amendment to the amendment that bill be passed for printing.

Point of Order.

Supervisor Hayden raised point of order without prejudice, the point of order being "that the operation of this ordinance as to the disposal of this fund was contrary to the fixed policy of the Board of Supervisors heretofore voted unanimously to the extent that \$300,000 of that money was to be appropriated for school purposes and \$92,000 devoted to an aquatic park".

Ruling.

His Honor the Mayor ruled the point of order not well taken for the reason that the ordinance in nowise intends to provide for the disposal of the money. This ordinance, he said, creates a fund in which the money shall be placed where it cannot be spent for any other purpose.

Passed for Printing.

Whereupon, the question being taken on *Supervisor Nelson's* motion, the bill was passed for printing by the following vote, to-wit:

Bill No. 4741, Ordinance No. — (New Series), directing that certain moneys be deposited in a certain funds to be known as "South Beach Lands Fund" and designating the purpose for which the same may be used.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The money received from the Southern Pacific Company in the matter of the exchange and sale of the South Beach Lands, owned by the City and County of San Francisco, is hereby deposited in a special fund to be known and designated as the "South Beach Lands Fund," the same to be used for the purchase or retirement of municipal bonds of the City and County of San Francisco, as shall be hereafter designated by resolution of the Board of Supervisors.

Section 2. No money shall be drawn out or paid from such fund otherwise than as herein provided.

Section 3. The attention of the Auditor and the Treasurer is hereby called to the provisions of this ordinance.

Passed for Printing—Board of Supervisors, San Francisco, November 12, 1917.

Report of Finance Committee on Appropriation for Paving Brompton Avenue in Front of City Property.

The following was presented by Supervisor Gallagher, read and ordered filed:

San Francisco,
November 12, 1917.

To the Members of the Board of Supervisors.
Gentlemen:

Your Finance Committee had for consideration at its meeting on Friday last, the recommendation of the Board of Public Works, among other things, for the paving of Brompton avenue between Bosworth street and Joost avenue, the City being liable for a 400-foot frontage at the Glen Park school, the cost of which is estimated at \$1,800.

A condition prevails, on account of the grade, that the curbing and sidewalks already installed will be washed out by heavy winter rains.

Your committee therefore, rather than have the City jeopardized in a greater liability on account of very probable washouts, recommends that the ordinance directing this work to be done be passed to print, and the Board go on record pledging itself to an appropriation for the City's portion when the exact amount shall have been determined upon receipt of bids by the Board of Public Works.

Respectfully,
ANDREW J. GALLAGHER,
E. L. NOLAN,
Finance Committee.

Under date of November 5, 1917, I recommended that your Board request the Board of Supervisors to set aside the sum of \$10,000 to defray the costs of the City's share of the improvement of Donahue street, Innes to Galvez, and under date of November 8, 1917, another \$10,000 as a portion of the City's share of the improvement of Innes avenue, between Hawes and Donahue.

Since the work on all the sections of this work is being diligently prosecuted, the near future will see many recommendations for payments to the contractor.

Rather than be put to the necessity of requesting appropriations with each payment, I recommend that your Board request the Board of Supervisors to set aside \$45,000, the balance remaining in the fund provided for this work in the 1917-18 budget.

I further recommend that the resolutions requesting two appropriations of \$10,000 each, as recommended in my letters of November 5 and November 8, referred to above, be rescinded, this \$20,000 being included in the \$45,000 request of preceding paragraph.

Respectfully,
M. M. O'SHAUGHNESSY,
City Engineer.

JOURNAL OF PROCEEDINGS

BOARD OF SUPERVISORS

MONDAY, NOVEMBER 19, 1917, 2 P. M.

In Board of Supervisors, San Francisco, Monday, November 19, 1917, 2 p. m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Brandon, Deasy, Gallagher, Hayden, Hilmer, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—16.

(Supervisor Wolfe absent on account of illness.)

Quorum present.

His Honor Mayor Rolph presiding.

READING THE JOURNAL.

The Journals of Proceedings of the meetings of October 27 and 29, 1917, were considered, read and approved.

Allen Doone, Irish Actor, Presented.

His Honor Mayor Rolph presented Allen Doone, Irish actor, whom he said is visiting San Francisco on a tour of the world and is now showing "Lucky O'Shea," an Irish comedy-drama, at the Alcazar.

Mr. Doone addressed the Board, complimenting San Francisco on its hospitality as well as for the grandeur and magnificence of its Civic Center and City Hall, which he said compare favorably with the best in the world. "The Roman Senators had nothing on you gentlemen. This is the finest council chamber in the world. The only thing I have seen that compares with it is the Town Hall in Melbourne."

ROLL CALL FOR PETITIONS FROM MEMBERS.

The following matters were presented and read by the Clerk:

Copy of Letter Sent by Supervisor Hayden to Neal Publishing Company, Requesting Contractual Relations with Allied Printing Trades.

The following was presented, read and ordered *spread in the Journal*:

October 29, 1917.

Neal Publishing Company,
414 Mission street, City.

Gentlemen: Following your letter of

August 30, 1917, promising to completely unionize your employes (which promise has since been fulfilled), I find that there is still a demand that your firm enter into contractual relationship with the Allied Printing Trades Council.

If it would be consistent with your principles, I would further advise that an amicable agreement be brought about that could be signed by both parties to this issue, thus settling the printing troubles of the Board of Supervisors—I hope, for all time.

Thanking you for your courtesy under these circumstances, I am,

Very truly yours,

J. EMMET HAYDEN,
Supervisor.

Communication—From Wm. C. Read by the Clerk.

Italian War Picture Benefit at Auditorium.

Supervisor Brandon presented the following resolutions without the recommendation of the Auditorium Committee and requested that it be considered as a Special Order of Business by the Board, to-wit:

Resolution No. 15058 (New Series), as follows:

Resolved, That Ralph Pincus, for Gottlob, Marx & Pincus be granted permission to rent the Main Hall in the Auditorium, November 24th to December 2nd, 1917, inclusive, for the purpose of exhibiting motion picture scenes of the Italian war, a deposit having been paid to the Clerk of the Board of Supervisors to guarantee the rental fee.

Privilege of the Floor.

Eustace Cullinan and *I. Golden*, representing the theatrical interests of San Francisco, addressed the Board. The former read telegraphic communications had between himself and the Italian Ambassador at Washington, D. C., in which the company bringing out these moving pictures was characterized as a purely commercial enterprise. If this is true, Mr. Cullinan said, and the entire net proceeds are not devoted to Italian relief, as represented, then we are strongly opposed to granting a permit for the use of the Civic Auditorium at its ridiculously low rental in competition with the established theatrical houses of this city.

Attorney Timothy Healy, acting as spokesman for the promoters, assured Mr. Cullinan and Judge Golden that the entire net proceeds of the picture show would be placed at the disposal of the Italian war fund, the only expense outside the rental being his fee as an attorney and manager Ryan's salary of \$100 per week. In his state-

ment he was supported by Pio Margotti, the local Italian Consul.

Consul Pio Margotti assured the Mayor and the Supervisors that he was satisfied that the project was a laudable one. He suggested that a committee composed of A. F. Gianini of the Bank of Italy, A. Sbarboro of the Italian Popular Bank, F. N. Belgrano, A. Pedrini and James Bacigalupi be selected to supervise the handling of the funds.

Adopted.

Whereupon the foregoing resolution was, on motion of Supervisor Brandon, *adopted* by the following vote:

Ayes—Supervisors Brandon, Deasy, Gallagher, Hayden, Hilmer, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—16.

Absent—Supervisors Hocks, Wolfe—2.

SPECIAL ORDER, 3 P. M.

Changing Name of Richmond District.

The following Bill heretofore presented by Supervisor Welch and laid over from last meeting was taken up:

Bill No. 4742, Ordinance No. — (New Series), as follows:

Changing the name of "Richmond District," as recited in Order No. 2309, and as delineated on the official map as applying to that district of the City and County of San Francisco, north of Golden Gate Park and west of First avenue, to Park-Presidio District.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The name of "Richmond District," as recited in Order No. 2309, and as delineated on the official map as applying to that district of the City and County of San Francisco, north of Golden Gate Park, and west of First avenue, is hereby changed to Park-Presidio District.

Section 2. The attention of the Assessor, Tax Collector, Recorder and City Engineer is hereby called to the provisions of this Ordinance.

Section 3. All orders and ordinances in conflict with the provisions of this Ordinance are hereby repealed.

Section 4. This Ordinance shall take effect immediately.

Privilege of the Floor.

Senator W. Scott, S. W. Mulkenburg, Henry M. Owens, L. A. Colton, President Park-Presidio Improvement Club, G. B. Scott and other residents and property owners of the Richmond District, appeared and addressed the Board in favor of the proposed change.

The present name, they declared, was the cause of a great deal of confusion in the delivery of mail on account of confusion with the com-

munity across the bay of a similar name.

Supervisor Hayden suggested that consideration of bill be laid over one week, as he had received a telephone message from T. P. Robinson making that request on the ground that many property owners opposed to the change were unable to be present and wanted to be heard.

Passed for Printing.

Whereupon the foregoing bill was passed for printing:

Award of Contract for Printing and Books.

The following resolutions heretofore presented by Supervisor Walsh and reconsidered at last meeting, were again taken up:

Rejection of Printing Bids of Neal Publishing Company and Awards to Next Bidders.

Resolution No. — (New Series), as follows:

Whereas, It appears from the written record of the proceedings of the Board of Election Commissioners that the firm of Neal Publishing Company has flagrantly violated its printing contract with this city by its failure to comply with the specifications for furnishing printed matter for the Charter Amendment election of 1916, for the use of the Department of Elections, and

Whereas, Owing to the short time until the election of that year it was impossible to correct the work and it had to be accepted, and

Whereas, After reporting this violation of contract to his Honor Mayor Rolph, the Election Commissioners saw fit, by resolution of that Board, unanimously adopted, to censure and penalize said firm of Neal Publishing Company and to characterize their action as an unfair and unjust advantage taken of other bidders who doubtless bid with a view to performing their contracts in exact accord with the specifications.

Therefore, in awarding the contract for printing for this year, in justice to reputable firms whose bids are based on considerations of full compliance with our specifications, and in order that such firms may be protected against all unreliable and unscrupulous competitors,

Be it Resolved, That the bids of the Neal Publishing Company on the following items be and they are hereby rejected, and said items are hereby awarded to the following named firms, who are the next lowest bidders, at their bid price, as hereinafter set forth, and in strict accordance with the specifications prepared therefor, and the amounts of the bonds for the faithful performance of said contracts are hereby fixed in the sums set under the names of the respective bid-

ders to whom the contracts are hereby awarded as per the number and article enumerated and appearing on the schedule of yearly supplies, to-wit:

BUCKLEY & CURTIN.

(Bond as fixed by Resolution No. 14685, (New Series).)

Award of Contract for Books.

Rejection of Bids of Neal Publishing Company, Award of Contract for Books.

Resolution No. — (New Series), as follows:

Whereas, it appears from the written record of the proceedings of the Board of Election Commissioners that the firm of Neal Publishing Company has flagrantly violated its printing contract with this city by its failure to comply with the specifications for furnishing printed matter for the Charter Amendment election of 1916, for the use of the Department of Elections, and

Whereas, owing to the short time until the election of that year, it was impossible to correct the work and it had to be accepted, and

Whereas, after reporting this violation of contract to his Honor Mayor Rolph, the Election Commissioners saw fit, by resolution of that Board, unanimously adopted, to censure and penalize said firm of Neal Publishing Company and to characterize their action as an unfair and unjust advantage taken of other bidders who doubtless bid with a view to performing their contracts in exact accord with the specifications,

Therefore, in awarding the contract for books for this year, in justice to other reputable firms, whose bids are based on considerations of full compliance with our specifications, and in order that such firms may be protected against unreliable and unscrupulous competitors,

Be it Resolved, That the bids of the Neal Publishing Company on the following items be and they are hereby rejected and said items are hereby awarded to the following named firms, who are the next lowest bidders, at their bid price, as herein-after set forth, and in strict accordance with the specifications prepared therefor, and the amounts of the bonds for the faithful performance of said contracts are hereby fixed in the sums set under the names of the respective bidders to whom the contracts are hereby awarded, as per the number and article enumerated and appearing in the schedule of yearly supplies, to-wit:

Communication From John C. Thomson, Requesting \$2000 for Passing Upon Legality of School Bond Issue.

The following was presented, read and ordered spread in Journal:

1619 Equitable Building,

120 Broadway, New York,

November 20, 1917.

Hon. J. S. Dunnigan,

Clerk, Board of Supervisors,

City Hall, San Francisco, Cal.

Dear Mr. Dunnigan:

San Francisco, Cal., School Bonds,
\$3,500,000.

I am today in receipt of your letter of November 15, in which you state that your Board has requested you to ascertain what my fee would be for examining into and giving an opinion upon the above issue of bonds, voted by the electors of San Francisco on November 30, 1917, by 37,619 for and 7,845 against.

I think that \$2000 will be a reasonable charge for the services required of me, assuming (as I confidently expect) that I will be able to approve

the validity of the issue. If by any chance I should be unable to approve the validity, then my fee will be one-half of the above amount. I trust that this fee will be satisfactory to your Board and should be glad to receive the transcript in due time.

Permit me to express the pleasure which it gives me to know that the City of San Francisco desires me to continue to act in its bond matters.

With sincere regards, I remain,

Very truly yours,

JOHN C. THOMSON.

Absent—Supervisors Gallagher, Hocks, Wolfe—3.

Relative to Condition of Owl Lodging House on Third Street Recently Destroyed by Fire.

Communication—From Board of Public Works, relative to condition of Owl Lodging House on Third street recently destroyed by fire.

Referred to Public Buildings Committee.

Condition of Mission Street.

Supervisor Welch called the attention of the Board of Supervisors to the condition of Mission street, which he said was 50 per cent out of commission in so far as traffic is concerned. "The Board of Public Works," he said, "is having trouble in obtaining material for furnishing pavement. The con-

crete base of the street," he said, "will be very seriously damaged and there will be a great loss to the city, unless something is done at once, before winter rains set in. The Auditor refuses to pay the warrants of Warren Bros. for the paving material and they have refused to furnish it." He requested that the Board of Public Works, the City Auditor or his attorney and the City Attorney be sent for and hearing be set for 3 p. m.

At 3 p. m., Auditor Boyle, Messrs. Riordan and Judell of the Board of Public Works and City Attorney Lull appeared before the Board.

President T. Riordan of the Board of Public Works was granted the privilege of the floor and addressed the Board and declared that Warren Bros. complain that they cannot get their money from the city. "There is no royalty on the material," he said, "and the City Attorney said it could be made and used by the city, but at present we have no facilities for making it. We have shown our agreement to Mr. Moran, the Auditor's attorney, and he says that if agreement contains provision wherein Warren Bros. have waived rights to the city to use their material without exacting royalties he will withdraw his opposition to payment of demands."

Auditor Boyle, explaining his position, said that he was withholding payments because he believed that the methods of purchasing the Warrenite material are in violation of the charter, and he had been so advised by his attorney.

As to the City Attorney's opinion that the demands are legal, he said: "The opinion of the City Attorney does not release the Auditor of his responsibility on his bond. The Board of Works are buying \$498 worth of material at a time showing clearly an evasion of the law. The Board of Works can make the material and put it down themselves. The Warren people can mandamus me and test matter in court. The Board of Public Works should have gone about this matter in a legal way."

Commissioner Judell of the Board of Public Works claimed that there was no evasion of the \$500 provision of the Charter. Every time the Board of Public Works buys material it is advertised in the papers as required by law.

Auditor Boyle declared that he thought the matter could be cleared up and that he would have a conference with his attorney the first thing in the morning to that purpose.

Supervisor-Elect McSheehy Presented.

Supervisor Hayden presented Supervisor-elect McSheehy, whom he had invited to take a seat beside him during today's session.

His Honor Mayor Rolph welcomed Mr. McSheehy and declared that he was fully convinced that by reason of Mr. McSheehy's experience as a contractor with the various departments of the city he would be able to render a good account of his stewardship as a Supervisor.

Supervisor-elect McSheehy thanked the Mayor and members of the Board for the welcome extended, as well as Supervisor Hayden, whom he said was thoughtful enough to invite him to be present. He assured the Board that as a Supervisor he would fully inform himself on all matters before he cast his vote.

REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were read and ordered filed:

Fire Committee, by Supervisor Deasy, Chairman.

Supplies Committee, by Supervisor Jno. O. Walsh, Acting Chairman.

UNFINISHED BUSINESS.

MONDAY, DECEMBER 3, 1917, 2 P. M.

In Board of Supervisors, San Francisco, Monday, December 3, 1917, 2 p. m.

The Board of Supervisors met in regular session.

Absent — Supervisors Gallagher, Wolfe—2.

(Supervisor Wolfe absent on account of illness.)

Quorum present.

His Honor Mayor Rolph presiding.

READING THE JOURNAL.

The Journals of Proceedings of the meetings of June 21, 22 and 25 and November 26, 1917, were considered, read and approved.

Relative to the Annexation of San Mateo County and a Uniform Gas Rate for Peninsula Cities.

His Honor Mayor Rolph called to the attention of the Board the fact that the constitutional amendment relating to the annexation of San Mateo County would be voted upon next year and that this City should by all possible means show a friendly and helpful spirit towards the communities down the Peninsula. "At this time," he said, "proceedings were pending before the State Railroad Commission by which the Pacific Gas and Electric Company is seeking to have a gas rate of \$1.25 per 1000 feet established in the San Mateo cities, while San Francisco enjoys a rate of 85 cents per thousand feet. As these cities were supplied from the same source as San Francisco," he said, "it might be possible to secure a uniform rate for the entire district, and in this way establish a community of interest that would cement the ties between all the different cities." The Mayor suggested that the Public Utilities Committee take up the subject with the City's experts in the gas rate litigation and see to what ex-

tent we could be of assistance to the San Mateo cities.

The suggestion was agreed to.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Relative to Appointment of Bacteriologist for Board of Health.

San Francisco, Cal., December 1, 1917. To the Honorable Board of Supervisors of the City and County of San Francisco—

Gentlemen:

I herewith return to your Honorable Board, without my approval, Resolution No. 15041 (New Series), adopted by you on November 19th, 1917, for the reason that the Resolution refers to Section 2 of Chapter VI of the Charter, whereas it should properly refer to Section 2, Article XVI of the Charter.

Respectfully,

JAMES ROLPH, JR.,
Mayor.

Resolution No. 15041 (New Series). Whereas, it appears from a communication from the Department of Public Health that it is impossible to obtain the services of a bacteriologist of sufficient training and experience who is a resident of this City and County; therefore,

Resolved, That the position of bacteriologist is one that requires expert and technical training as that term is used in Section 2 of Chapter VI of the Charter, and the requirements of said section as requiring a previous residence in the City and County be suspended and that the Department of Public Health be permitted to employ a non-resident in such position upon presenting a certificate of training and experience sufficient to qualify him to perform the duties of such position.

Repealed.

Whereupon, Supervisor Nelson moved that the foregoing resolution be repealed.

SPECIAL ORDER, 2:30 P. M.

The following resolution laid over from last meeting and made a Special Order of Business for 2:30 p. m. this day was taken up:

Resolution No. 15088 (New Series), Providing the sum of \$500.00 out of Urgent Necessities, Budget Item No. 32, for expense in connection with City's exhibit during baby welfare

week exhibition, month of February, 1918, under direction of Department of Public Health.

Privilege of the Floor.

Dr. Hassler, representing the Board of Health, was granted the privilege of the floor and addressed the Board. He declared that the Board of Health was in sympathy with this child welfare movement, but believed that the appropriation should be under the control of the Board of Health, and expenditures should be subject to the approval or disapproval of the Board of Health. Printed matter should bear some legend indicating that work is being done in connection with the Board of Health. If any equipment, such as moving-picture machines, are purchased they should become the property of the City and be placed in possession of the Board of Health. We regret that the Board of Health cannot do this work under its own auspices; we have asked for an appropriation, but could not get it.

Dr. Mariana Pertola also addressed the Board. She said she represented all child welfare associations in the City as well as the mothers' clubs and women's clubs. "This is the third year," she said, "we are engaged in this work. The Department of Labor recommended to the Government that this work be turned over to the National Association of Women's Clubs, and each district and town has taken up the work. I find that in many States the Board of Health has nothing to do with it; in some it is under the auspices of the Board of Education.

Miss Musto also addressed the Board in favor of the proposed resolution.

Adopted.

Whereupon, the foregoing resolution was *adopted* by the following vote:

Ayes—Supervisors Brandon, Deasy, Hayden, Hilmer, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—16.

Absent — Supervisors Gallagher, Wolfe—2.

The following Bill, heretofore presented by Supervisor Power and laid over until this meeting, was taken up and on motion, *laid over one week* and made a Special Order of Business for 3 p. m.:

Change of Grade Ordinance.

Bill No. —, Ordinance No. — (New Series), as follows:

Providing a method of procedure for the change of street grades, for the doing of any kind of street work in connection therewith; for the payment of the costs, expenses and damages thereof; for the imposition of assessments upon land in private ownership to cover such costs, and for the collection of such assessments; this ordinance to be known as the "Change of Grade Ordinance."

This ordinance was framed by a committee appointed in accordance with a resolution of this Board and in anticipation that the regrading of Rincon Hill might be provided for.

The principal features embodied in the ordinance may be summarized as follows:

1. A method by which the City may acquire the right to remove material from lots in private ownership, in lieu of paying damages to such lots resulting from the lowering of the street grade.

2. Provisions that streets may be excavated in one district and elevated in another in order that the material excavated can be utilized to its full value, and the greatest possible benefits created. One proceeding can combine both processes, viz.: a cut and a fill

and the streets affected may be in different portions of the City.

3. The creation of two or more assessment districts as may be required to share the cost of the work.

4. A classification of benefits and districts into "Primary" and "Secondary." Primary districts are those which will be primarily benefited, *i. e.*, where the lots of land front on streets to be excavated and filled, and receiving a direct benefit of the work of improvement. Assessments in primary districts are based on the increase of the land value resulting from the improvement. Secondary districts are those wherein the benefits arise from the work as a whole. Several of such districts may be created according to the degree of resulting benefits. Assessments in secondary districts are to be apportioned to the lots according to the assessed value. This method, it is believed, is the most equitable in view of the contemplated project, and is less objectionable than the front foot or superficial area method.

5. Imposition of assessments annually for a period of ten years, each annual assessment to be paid in two installments.

6. Provisions by which any assessment may be anticipated and bonds issued to represent the same. Interest requirements are to be estimated in advance and included in the assessment.

7. It is planned that bids for doing the work may be received in advance of imposing the district assessments, and thus minimize all guesswork. The property owners will know the exact cost prior to the fixing of the assessment and the creating of the several districts.

8. A method of ascertaining and awarding damages, also in advance of the assessment.

9. Provisions for contesting claims for damages and testing the legality of the proceedings with limitations as to the time in which actions may be commenced.

10. The elimination of useless detail, having in mind the elimination of all needless expense, yet not infringing upon the rights of individuals to receive proper notice and to make objections.

JOURNAL OF PROCEEDINGS

BOARD OF SUPERVISORS

MONDAY, DECEMBER, 10, 1917, 2 P. M.

In Board of Supervisors, San Francisco, Monday, December 10, 1917, 2 p. m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Brandon, Deasy, Gallagher, Hayden, Hilmer, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch, Wolfe—18.

Quorum present.

His Honor Mayor Rolph presiding.

READING THE JOURNAL.

The Journal of Proceedings of the meeting of December 3, 1917, was considered, read and approved.

Supervisor Wolfe Present.

Supervisor Edw. I. Wolfe, who has been ill for several weeks past attended the meeting today, but was able to remain only for a few moments. He was warmly welcomed by the members of the Board and His Honor the Mayor, who expressed the hope that Supervisor Wolfe would soon be in complete enjoyment of his former vigor and health and be able to take his place in the Board.

Camp Fremont.

Supervisor Hayden announced that Camp Fremont fund has been completed by the underwriting of the balance of the money required by certain prominent citizens of San Francisco and that the cantonment was now assured. General Murray, he said, had already ordered 10,000 troops to the new cantonment and it was a matter of a short time when the complete quota would be there.

Clerk Dunnigan, who arrived later, confirmed the good news and gave the Board the details of what had transpired at the meeting.

His Honor Mayor Rolph took occasion to criticize the Southern Pacific Company for its failure to contribute anything to the fund. He stated that the railroad company had not contributed a cent to the fund, although, as he stated, it is the greatest beneficiary of the great military camp.

"The Southern Pacific Company has been almost begged to give something to save Camp Fremont to the city, but it has steadfastly refused to give a penny," he said. "There is still a balance of \$40,000, which has been underwritten by public spirited citizens. The railroad company ought to contribute the entire balance."

Appreciation of Service of John A. Britton and Other Citizens Who Aided in Retention of Camp Fremont.

Upon the suggestion of his Honor the Mayor the following resolution was thereupon presented:

Resolution No. 15098 (New Series), as follows:

Resolved, That his Honor the Mayor be requested to extend to John A. Britton the thanks and gratitude of the people of San Francisco and the Board of Supervisors for his indefatigable and patriotic efforts in procuring the funds to assure the retention of Camp Fremont at Menlo Park; also that this testimonial of appreciation include the men who so earnestly and loyally aided Mr. Britton in fulfilling the pledge which his Honor the Mayor was authorized to give to the United States Army on June 28, 1917.

Adopted under suspension of the rules by the following vote:

Ayes—Supervisors Brandon, Deasy, Gallagher, Hayden, Hilmer, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—17.

Relative to Exchange of Fine Arts Palace Land By U. S. Government for Military Right of Way to Presidio.

The following was presented, read and ordered spread in the Journal:

December 10th, 1917.

Board of Supervisors, San Francisco, Cal.

Gentlemen: There was recently held in the Mayor's office a conference at which were present the following:

The Mayor, and Judge Matt I. Sullivan, the City Engineer, Mr. F. W. Kellogg of the San Francisco Call, John I. Walter, President of the San Francisco Art Association, Mr. C. H. Cheney, Mr. Justin McGrath of the San Francisco Examiner, Frank I. Turner, President of the Preservation League and a representative of this office.

At this conference there was a general discussion upon the proposal of an exchange between the United States Government and the regents of the University of California for the benefit of the City and County of San Francisco, of the lands upon which the Palace of Fine Arts is located, and a strip of land to be donated by the city for railroad right of way purposes leading along practically the same route as the present State Belt Railroad from the westerly portal of the Fort Mason tunnel to the easterly boundary line of the Presidio.

I was asked to draw the necessary proceedings to be passed by the Board of Supervisors so that Mr. F. W. Kellogg could go to Washington, see the Secretary of War and present to him in tangible form what would amount to an offer by the city to comply with the general purposes of the recent act of Congress authorizing such a transfer. I have drawn therefore an ordinance which I enclose herewith that would authorize the City Attorney in the event of the United States Government commencing condemnation proceedings against the city to consent to a judgment being entered conveying to the Government such title as the city may have of the strip of land described in said ordinance. This strip, roughly speaking, is 12 feet 6 inches in width and extends from the westerly portal of the Fort Mason tunnel at Laguna street; thence westerly on Beach street to Buchanan and then down the Marina boulevard and into Tonquin street and along Tonquin street to the Presidio line. The city will also covenant to guarantee perpetual quiet possession to the Government so long as it uses this right of way for railroad purposes. The city reserves to itself the right to use the balance

of the street for street purposes and also this strip itself for street purposes so long as such use does not interfere with the use by the United States Government for railroad purposes. The United States Government in turn conveys to the regents of the University of California just as is authorized by the recent act of Congress and for the benefit of the people of this city and the public generally, the lands upon which is located the Palace of Fine Arts, these being in the Presidio Military Reservation. Mr. Kellogg is about to leave the city for Washington and is very anxious to take with him something in tangible form to show the Secretary of War.

I therefore respectfully suggest the adoption of this ordinance. I have also drawn a draft of a proposed amendment to the act of Congress to permit of these ideas being better carried out which Mr. Kellogg will submit to the Secretary of War on his visit to Washington.

Very truly yours,

GEORGE LULL,

City Attorney.

By J. F. ENGLISH,

Assistant City Attorney.

Passed for Printing.

Whereupon the following bill was presented and *passed for printing*:

Bill No. 4774, Ordinance No. — (New Series), as follows:

Authorizing and directing the City Attorney to consent to judgment in eminent domain proceedings to be brought by the United States Government to acquire a certain strip of land for military right of way uses, and the Mayor to execute a contract for quiet possession of the same, in consideration of the conveyance by the United States to the Regents of the University of California of certain lands for the benefit of the people of San Francisco and the general public.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. There having been negotiations pending between the United States Government and the City and County of San Francisco, looking to the transfer by the United States Government to the Regents of the University of California of that portion of the Military Reservation of the Presidio of San Francisco on which the Palace of Fine Arts is located, for the benefit of the people of the City and County of San Francisco and the public generally, in return for a transfer by the said City and County of San Francisco to the said United States Government, of a certain right of way for railroad purposes, leading generally along a route commencing

at the westerly portal of the Fort Mason tunnel and ending at the Presidio line, and it being to the interests of the people of the City and County of San Francisco to effect such an exchange with the United States Government, the City Attorney is hereby authorized and directed to consent to a judgment in eminent domain being rendered and entered against the City and County of San Francisco, in the event of eminent domain proceedings being instituted by the United States Government, to condemn all right, title and interest which the said City and County may have in that certain strip of land hereinafter described for the purpose of constructing or operating, or providing for the construction or operation thereon of a railroad leading to the easterly boundary line of the said Presidio Military Reservation for use in connection with said Military Reservation.

The City Attorney is further authorized and directed to draw such a contract as may be necessary to be executed by the Mayor on behalf of the City and County of San Francisco, and the Mayor is authorized to execute such contract on behalf of the said City and County of San Francisco by which the City and County of San Francisco may warrant perpetual quiet possession of said right of way to the United States Government. In any such judgment in eminent domain as described herein, there shall be reserved to the City and County of San Francisco the right and privilege of using for street purposes the entire remainder of the public streets of the City and County of San Francisco through which the hereinafter described strip of land is located and also to use said strip of land for such public street purposes in so far as such use will not interfere with the use thereof by the United States Government for its railroad purposes which it is intended to be finally granted to the United States Government. In addition, there shall be included in any such judgment, a proviso that if at any time in the future the property so acquired for such railroad purposes shall cease to be used for the purposes for which acquired, then all right and title thereto shall revert to the City and County of San Francisco.

The consideration for the consent by the city to such a judgment being entered against the city in eminent domain proceedings and to the execution by the city of its warranty to quiet possession herein described is to be a conveyance by the Secretary of War of the United States, he being first duly authorized so to do by Congress of the United States to the Regents of the University of California,

their successors and assigns for art, educational and park purposes and for the benefit of the people of the City and County of San Francisco and the public generally, of that portion of the Military Reservation of the Presidio of San Francisco in the City and County of San Francisco on which the Palace of Fine Arts is located included within metes and bounds described as follows, namely:

Commencing at the point on the westerly line of Lyon street, distant therefrom five and seventeen one-hundredths feet southerly from the northerly line of Bay street, if extended and produced westerly, and running thence northerly along the westerly line of Lyon street one thousand one hundred and ninety-six and eighty one-hundredths feet; thence southwesterly on a curve to the left of six hundred and twelve feet radius, central angle one hundred and fifty-five degrees forty-seven minutes and fifty seconds, tangent to a line deflected one hundred and two degrees six minutes and five seconds to the left from the preceding course a distance of one thousand six hundred and sixty-four and thirteen one-hundredths feet to the westerly line of Lyon street and the point of commencement, containing nine and ninety-three one-hundredths acres, more or less.

And further, the City and County of San Francisco hereby consents that in such conveyance there may be included the proviso that if at any time in the future, the property so conveyed to the said Regents shall cease to be used for the purposes for which conveyed, then all right and title thereto shall revert to the United States.

The following is a full and particular description of the said strip of land to be so acquired by the United States Government from the said City and County of San Francisco in said eminent domain proceedings:

A strip of land 12 feet 6 inches in width, 6 feet 3 inches on each side of a center line described as follows:

Commencing at a point on the easterly line of Laguna street (which is also the west line of the Ft. Mason Military Reservation) 35.725 feet northerly along said line from the southerly line of Beach street produced easterly; thence westerly on a 5° curve (radius 1146.28 feet) to the right 55.53 feet to a point 13.22 feet easterly from the westerly line of Laguna street produced and 34.375 feet northerly from the southerly line of Beach street produced easterly; thence westerly on a tangent parallel to the southerly line of Beach street 125.56 feet; thence on a 20° curve

(radius 287.939 feet) to the right 25 feet; thence westerly on a tangent 179.14 feet; thence on a 20° curve (radius 287.939 feet) to the right 182.05 feet to a point on the westerly line of Buchanan street 119.62 feet northerly from the south line of Beach street; thence continuing on the same 20° curve (radius 287.939 feet) to the right 31.70 feet; thence northwesterly on a tangent 579.76 feet to a point on the easterly line of Webster street, 160.98 feet northerly from the north line of Jefferson street produced easterly; thence continuing northwesterly on the same tangent 111.23 feet; thence on a 20° curve (radius 287.939 feet) to the left 238.75 feet; thence westerly on a tangent parallel to and 28.125 feet northerly from the center line of Tonquin street 3471.45 feet to the easterly line of the Presidio Military Reservation.

City Attorney to Compromise Claims In re Reigle vs. City and County of San Francisco for Damages Suffered by Automobile Accident With Geary Street Car.

The following was presented and read by the Clerk:

December 10th, 1917.

Hon. Board of Supervisors, San Francisco, Cal.

In re Reigle v. City and County of San Francisco, Superior Court No. 71,408.

Gentlemen: I hereby recommend the payment of the judgment heretofore rendered in the above referred to action and the settlement thereof upon the basis hereinafter set forth. Said action was twice tried before a jury in Department No. 5 of the Superior Court of this City and County. In the first trial the jury disagreed. In the second trial a verdict was rendered in favor of plaintiff and against the defendant in the sum of \$10,000.

The action was brought to recover damages for the death of Harry H. Reigle, which was caused by a collision between an automobile driven by deceased and a car of the Geary street road, which occurred August 28, 1915. After the accident the car proceeded between 150 and 200 feet before it was stopped, which fact led the jury to believe that it was proceeding at a very great rate of speed. The city has the right to appeal in this case but the rule is well established that verdicts based upon conflicting evidence will not be disturbed

upon appeal unless errors of law have occurred during the trial.

The judgment in this action now amounts to:

Principal	\$10,000.00
Interest from April 26, 1917, to December 26, 1917, at 7% (eight months).....	466.66
Costs awarded to plaintiff...	130.00
Total	\$10,596.66

After some considerable negotiation I have received an offer of settlement of this judgment for the sum of \$9750.00 net. As a part of this settlement the city is also to obtain the dismissal of a suit now pending brought by Mrs. Reigle to recover damages suffered by her personally, as a result of the same accident, in the sum of \$5347.50.

In my opinion the prospect of a reversal of this judgment upon appeal is not sufficient to warrant the refusal of this offer and I therefore recommend its acceptance and that the case be compromised by the payment of \$9750.00 net, and upon obtaining a dismissal of the suit of Mrs. Reigle.

Respectfully,

GEORGE LULL,
City Attorney.

Whereupon the following resolution was presented and adopted:

Resolution No. 15097 (New Series), as follows:

Whereas, In an action commenced and pending in the Superior Court of the City and County of San Francisco, wherein Roy Emerson Reigle, administrator of the estate of Harry H. Reigle, deceased, is plaintiff, and the City and County of San Francisco is defendant (said action being designated in the record of the Superior Court as action No. 71408) judgment after a trial by jury has been rendered against the defendant and in favor of said plaintiff for the sum of \$10,000, and costs, and

Whereas, The City Attorney has by written communication addressed to the Board of Supervisors, recommended the satisfaction and settlement of said judgment for the sum of \$9,750.00 net, the plaintiff in said action waiving costs and interest, and as a further consideration for said settlement to give a dismissal in that certain action commenced and pending in the Superior Court of the City and County of San Francisco wherein Mary F. Reigle is plaintiff and the City and County of San Francisco is defendant (said action being designated in the records of the Superior Court as Action No. 71,954) and

Whereas, It appears from said communication of the City Attorney that it would be for the best interests so to do, now therefore be it

Resolved, That the City Attorney be and he is hereby directed to secure a satisfaction and settlement of said judgment for \$10,000.00 for the sum of \$9,750 net, interest and costs on said judgment to be waived, and also to secure in consideration of said settlement dismissal in the action of Mary F. Reigle vs. City and County of San Francisco (Superior Court Action No. 71,954, before specified), and to draw the necessary papers for a satisfaction of said judgment and dismissal of said action.

Relative to Printing Required for the Auditor's Office.

The following communication and the answer thereto was presented by Supervisor Gallagher, read by the Clerk and ordered filed:

Hon. Andrew J. Gallagher, Chairman, Supplies Committee, Board of Supervisors, San Francisco, Cal.

Dear Sir: My attention has just been called to the fact that we will need the drivers' cards as per schedule No. 220, which I understand was awarded to the Neal Publishing Company, this company being the lowest bidder.

We have been informed that there is some controversy relative to the printing required by the city, but beg to advise you that the cards will be needed by this office within a few weeks, absolutely before the first of the coming year. It is immaterial to this office who does the printing as long as we get the cards. I understand that the total amount of money involved in this contract is but fifteen or sixteen dollars.

Yours truly,

THOS. F. BOYLE,
Auditor.

Tom: I am sorry for this but it is not of my making. I cannot get this work done unless the Board will authorize it—printing contracts of this sort are all tied up.

GALLAGHER,
Chairman, Supplies Committee.
Communication From Klink, Bean & Company Relative to Completion of Work of Installing Uniform Accounting System.

The following communication was presented by Supervisor Power, read and ordered spread in the Journal and referred to Finance Committee: San Francisco, December 10, 1917. Honorable Board of Supervisors, City and County of San Francisco.

Attention of Mr. J. S. Dunnigan.

Gentlemen: This will acknowledge receipt of your favor of December

7th, signed by Mr. John W. Rogers, Chief Assistant Clerk, stating that there is an unexpended balance of \$245.00 of the original fund of \$10,000 appropriated in last year's budget for the purpose of installing a uniform accounting system in the various offices and departments.

You state that the Finance Committee understands that, when the work was discontinued, we were about to install a system in the Police and Fire Departments and in the Sheriff's Office; and you ask to be advised whether we could install the proposed accounting system in the Sheriff's Office for the amount of the unexpended balance now remaining in the fund, as above.

You will recall that at the time of the original negotiations in this matter, a fund of \$10,000 was appropriated for the purpose of devising the preliminary forms, and of making a general survey of the various offices of the city for the purpose of co-ordinating them with a view to the ultimate installation of a uniform accounting system for all.

You will remember also sundry estimates were made by various accounting firms of the ultimate cost of such installation, and that the task was assigned to us, it being estimated that the cost to the city of this work would be in the vicinity of \$50,000.

Much progress was made in the work before it was discontinued through the subsequent action of the Board of Supervisors, when further appropriations were omitted from this year's budget.

It would seem that the unexpended amount named by you would be totally insufficient for the purpose outlined; furthermore, in our view, such work would be futile without the similar and kindred work in the other departments, since the vital point in the entire matter is that the system of accounting shall be uniform in all departments.

Whenever this view shall have been finally adopted by your Honorable Board and the necessary provision made for the work, we shall be glad to prosecute it to its final conclusion with the utmost expedition, making full and appropriate and serviceable use of that portion of our work which has already been performed.

Yours very truly,

KLINK, BEAN & COMPANY,

By B. T. BEAN.

Resolution of Sympathy to the People of Halifax.

The following resolution was presented by Supervisor Hayden under suspension of the rules and *adopted* by the following vote:

Resolution No. 15099 (New Series), as follows:

Whereas, Disaster of appalling na-

ture with disastrous consequences, involving great loss of life and property, has visited the City of Halifax, and has awakened a feeling of sympathy for the people of the stricken city with an accompanying desire to do something to alleviate their distress, and

Whereas, San Francisco recalls the world-wide and generous response to its appeal for aid in the hour of its need, following the disaster of 1906, and views the condition of Halifax as an opportunity for repaying in part the everlasting obligation incurred at that time; therefore

Resolved, That San Francisco, through its Mayor and Board of Supervisors, hereby extends its sympathy to the people of Halifax, and expresses its willingness to co-operate with the San Francisco Branch of the Red Cross for the purpose of providing such relief as may be needed, and the Mayor is hereby authorized to appoint a committee of citizens and take such measures as may be necessary.

Mayor's Veto.

Transfer of \$16,000 From General Fund to Park Fund.

The following matters were presented, read, ordered spread in the Journal and *laid over one week*:

San Francisco, Cal., December 5, 1917.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Gentlemen: I return to you, herewith, without my approval, resolution No. 15063 (New Series), as follows:

"Resolved, That the sum of \$16,000 be and the same is hereby set aside and appropriated out of General Fund, 1917-1918, to the credit of Park Fund,"

which was finally passed by your Honorable Board on November 26, 1917, and sent to me November 27, 1917.

I referred the resolution to the City Attorney for an opinion as to its legality, and am now in possession of a lengthy opinion from him on the subject, which I attach hereto and make part hereof.

My reasons for disapproving said resolution are based upon advice given me by the City Attorney in his opinion, which indicates that the resolution, itself, is illegal and contrary to Charter provisions.

I am in hearty accord with the desire to increase the pay of laborers

in the employ of the city from \$3.00 to \$3.50 a day, for many obvious reasons. The question of raising the pay of laborers in Golden Gate Park, however, rests entirely in the hands of the Honorable Board of Park Commissioners, and their expenditures must be confined to the maximum sum equal to seven cents of taxation, permitted by provisions of the Charter.

In order to give the Board of Park Commissioners more money to provide for the growing expenses entailed in the care of more parks and greater needs in Golden Gate Park than were contemplated when the Charter became effective on January 8th, 1900, it is my opinion that a charter amendment should be again submitted to the people increasing the annual allowance for park purposes.

Very respectfully yours,

JAMES ROLPH,

Mayor.

December 5th, 1917.

Subject: Park Fund Limited to Seven Cents on One Hundred Dollars Property Valuation.

Dear Sir: Resolution No. 15,063 adopted by the Board of Supervisors on November 26, 1917, provided for the setting aside and appropriating of the sum of \$16,000 from the General Fund to the credit of the Park Fund. You have requested my advice as to the power of the Board of Supervisors to make such an appropriation for the benefit of the Park Fund.

OPINION.

Section 11, Article XIV of the Charter provides for the levying of an annual tax by the Board of Supervisors for the Park Fund, on all property not exempt from taxation, which tax shall not be less than five cents nor more than seven cents upon each one hundred dollars assessed valuation of said property. A tax of seven cents was levied by the Board of Supervisors for the fiscal year 1917-18.

Here we find a distinct limitation by the Charter as to the amount of money that may be raised by taxation for the Park Fund.

Referring to Article III, Chapter II, Section 2 of the Charter we find the different funds authorized by the Charter designated, and it is stated that the moneys in these funds "shall not be used for any purpose other than that for which the same were raised except as otherwise provided in this Charter."

Then, "The General Fund shall consist of moneys received into the treasury and not specially appropriated to any other fund."

The section continues: "The Park Fund shall consist of the moneys annually appropriated to said Fund by virtue of the tax provided for in this

Charter for the maintenance, preservation and improvement of the parks, squares, avenues and public grounds of the City and County; of all moneys accruing from rents of buildings under the jurisdiction of the Park Commissioners; and of all moneys coming into the hands of said Commissioners whether from donations or otherwise. Out of said Fund shall be paid all the expenses of every kind for the preservation, maintenance and improvement of the parks, squares, avenues and public grounds of the City and County."

Then follows a similar provision with reference to the Library Fund. Then other sections defining other funds.

It will appear plain from the above that the Park Fund, so far as taxation upon property in this City and County is concerned, can consist only of taxes provided for in Section 11 of Article XIV. In addition, the fund consists of moneys accruing from rents, etc., and all donations and finally moneys coming into the hands of said Commissioners "otherwise" than from donations. I do not believe that this expression "otherwise" would include an appropriation from the General Fund. It would appear plain from Section 11 of Article XIV that so much of the Park Fund as is raised by taxation is limited to the seven cents which has already been levied and that in this section 2 above there is a clear distinction made between such tax moneys and other sources of revenue. As an instance of one other such source of revenue, I refer you to an opinion of my predecessor, Mr. Long, who distinguished money received from the State Highway taxes on automobiles, which money comes from the State, from money received from taxes levied by San Francisco on property located in this city. (Opinions City Attorney Long, 1912-16, p. 940.) I also refer you to an opinion by Mr. Long in the same volume, page 775, in which the Board of Supervisors requested advice of Mr. Long as to the power of the Supervisors to appropriate money for the Park Commissioners in excess of the seven cents limit.

Mr. Long advised that there was no such power, on account of the above sections of the Charter. At page 776 Mr. Long says:

"These sections place a limitation upon the amount of taxes that may be levied and the amount of money that may be appropriated for park purposes by your Honorable Board. Section 11 of Article XIV is mandatory and prohibitory. Under it your Honorable Board must annually levy a tax to provide all necessary money for park purposes. This tax must not

be less than five cents on the hundred; it cannot exceed seven cents.

"By Article III, Chapter II, Section 2, the Park Fund is made to consist of the amount raised by this tax, together with certain money from other sources. That section then provides that 'out of said fund shall be paid all the expenses of every kind' for park purposes. The effect of this is clearly to limit your Honorable Board in the appropriation of funds for park purposes to the amount realized by the tax levy for park purposes.

"I therefore advise: 1. That your Honorable Board cannot legally levy a tax of more than seven cents on the one hundred dollars for park purposes; 2. That in no case can money be appropriated for park purposes in excess of the amount realized by the tax for park purposes."

You are therefore respectfully advised that the attempted appropriation of \$16,000 recently made by the Board of Supervisors is in conflict with the above Charter provisions.

Respectfully,

GEORGE LULL,
City Attorney.

By J. F. ENGLISH,
Assistant City Attorney.

Report of Public Utilities Committee on Death of Thomas A. Cashin, Superintendent Municipal Railways.

The following report was presented, read, ordered spread in the minutes and copies ordered sent to Mayor and Board of Public Works:

San Francisco, December 10, 1917.

To the Members of the Board of Supervisors City and County of San Francisco.

Gentlemen: The Committee on Public Utilities of this Board, with profound sorrow, announces the death of Thomas A. Cashin, Superintendent of the Municipal Street Railway, which occurred in this city on Wednesday, December 5, 1917.

As representatives of the people of this city we would be remiss in the performance of our duty and be liable to a charge of lacking all sense of appreciation of the services of a faithful public servant, were we to fail to accompany this announcement with an

expression of gratitude for all that he has done for our city during the last five years.

When San Francisco determined to exercise the important function of providing transportation for its people, a service which had not theretofore been rendered by any important city in the United States, public attention became focused on this—as it was called—"experiment" in municipal ownership. Whether the experiment would prove a success or otherwise depended largely upon the type and character of the man who should be chosen to direct its operation.

The man selected to demonstrate the capacity of the municipality to successfully conduct a large industrial enterprise was Thomas A. Cashin.

In managing this undertaking Mr. Cashin brought to bear a combination of experience, caution, wisdom, patience, firmness, an understanding of the public requirements and good nature.

With the single idea in his mind—that of giving to the city a service of transportation superior to any theretofore known, and with every resource devoted to this end, he accomplished all that could be hoped for.

The details of his work need not be recounted here, yet it ought to be recorded in conspicuous phrase the fact that during the great Exposition year of 1915 the Municipal Railway under his direction provided for the transportation of the multitude to grounds of the Exposition; hundreds of thousands in a single day without serious accident and with expedition and convenience.

And let it be remarked that he did not extol his acts; with becoming modesty he let his work speak for itself, and thus he builded for himself a monument intangible, yet enduring, one which will perpetuate his memory.

The people of San Francisco have cause to remember Thomas A. Cashin and his work in their behalf.

His life, brief as it was, was a success, for he demonstrated that a municipality can inaugurate and carry on an enterprise of a commercial nature and render to the public a superiority of service that no other agency can give; and this example will serve to inspire other cities to make like effort and thus will spread the benefits which are only here apparent.

And thus the work that he has begun will go on even though he be dead.

This will be both our gain and our consolation.

Thomas A. Cashin, in the name of the people of San Francisco, and those of other cities who will gain

inspiration from what you have given us, we thank you for what you have done.

That the foregoing report be spread upon the minutes and a copy furnished to Mrs. Kate E. Cashin, mother of the deceased.

Also, that the Board of Public Works erect a suitable tablet to his memory in some appropriate place.

EDWARD I. WOLFE,

Chairman.

Motion.

Supervisor Mulvihill moved that when Board adjourns it does so out of respect to the memory of Thomas A. Cashin.

SPECIAL ORDER, 3 P. M.

Action Deferred.

The following Bill, heretofore presented by Supervisor Power and laid over until this meeting, was again taken up and on motion, *laid over one week* and made a Special Order of Business for 3 p. m.:

Change of Grade Ordinance.

Bill No. —, Ordinance No. — (New Series), as follows:

Providing a method of procedure for the change of street grades, for the doing of any kind of street work in connection therewith; for the payment of the costs, expenses and damages thereof; for the imposition of assessments upon land in private ownership to cover such costs, and for the collection of such assessments; this ordinance to be known as the "Change of Grade Ordinance."

This ordinance was framed by a committee appointed in accordance with a resolution of this Board and in anticipation that the regrading of Rincon Hill might be provided for.

The principal features embodied in the ordinance may be summarized as follows:

1. A method by which the City may acquire the right to remove material from lots in private ownership, in lieu of paying damages to such lots resulting from the lowering of the street grade.

2. Provisions that streets may be excavated in one district and elevated in another in order that the material excavated can be utilized to its full value, and the greatest possible benefits created. One proceeding can combine both processes, viz.: a cut and a fill and the streets affected may be in different portions of the City.

3. The creation of two or more assessment districts as may be required to share the cost of the work.

4. A classification of benefits and districts into "Primary" and "Secondary." Primary districts are those which will be primarily benefited, *i. e.*, where the lots of land front on streets to be excavated and filled, and receiving a direct benefit of the work of improvement. Assessments in primary districts are based on the increase of the land value resulting from the improvement. Secondary districts are those wherein the benefits arise from the work as a whole. Several of such districts may be created according to the degree of resulting benefits. Assessments in secondary districts are to be apportioned to the lots according to the assessed value. This method, it is believed, is the most equitable in view of the contemplated project, and is less objectionable than the front foot or superficial area method.

5. Imposition of assessments annually for a period of ten years, each annual assessment to be paid in two installments.

6. Provisions by which any assessment may be anticipated and bonds issued to represent the same. Interest requirements are to be estimated in advance and included in the assessment.

7. It is planned that bids for doing the work may be received in advance of imposing the district assessments, and thus minimize all guesswork. The property owners will know the exact cost prior to the fixing of the assessment and the creating of the several districts.

8. A method of ascertaining and awarding damages, also in advance of the assessment.

9. Provisions for contesting claims for damages and testing the legality of the proceedings with limitations as to the time in which actions may be commenced.

10. The elimination of useless detail, having in mind the elimination of all needless expense, yet not infringing upon the rights of individuals to receive proper notice and to make objections.

Mayor's Veto.

Transfer of \$16,000 From General Fund to Park Fund.

The following matters laid over one week were taken up:

San Francisco, Cal., December 5, 1917.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Gentlemen: I return to you, herewith, without my approval, resolution No. 15063 (New Series), as follows:

"Resolved, That the sum of \$16,000 be and the same is hereby set aside and appropriated out of General Fund, 1917-1918, to the credit of Park Fund,"

which was finally passed by your Honorable Board on November 26, 1917, and sent to me November 27, 1917.

I referred the resolution to the City Attorney for an opinion as to its legality, and am now in possession of a lengthy opinion from him on the subject, which I attach hereto and make part hereof.

My reasons for disapproving said resolution are based upon advice given me by the City Attorney in his opinion, which indicates that the resolution, itself, is illegal and contrary to Charter provisions.

I am in hearty accord with the desire to increase the pay of laborers in the employ of the city from \$3.00 to \$3.50 a day, for many obvious reasons. The question of raising the pay of laborers in Golden Gate Park, however, rests entirely in the hands of the Honorable Board of Park Commissioners, and their expenditures must be confined to the maximum sum equal to seven cents of taxation, permitted by provisions of the Charter.

In order to give the Board of Park Commissioners more money to provide for the growing expenses entailed in the care of more parks and greater needs in Golden Gate Park than were contemplated when the Charter became effective on January 8th, 1900, it is my opinion that a charter amendment should be again submitted to the people increasing the annual allowance for park purposes.

Very respectfully yours,

JAMES ROLPH,

Mayor.

December 5th, 1917.

Subject: Park Fund Limited to Seven Cents on One Hundred Dollars Property Valuation.

Dear Sir: Resolution No. 15,063

adopted by the Board of Supervisors on November 26, 1917, provided for the setting aside and appropriating of the sum of \$16,000 from the General Fund to the credit of the Park Fund. You have requested my advice as to the power of the Board of Supervisors to make such an appropriation for the benefit of the Park Fund.

OPINION.

Section 11, Article XIV of the Charter provides for the levying of an annual tax by the Board of Supervisors for the Park Fund, on all property not exempt from taxation, which tax shall not be less than five cents nor more than seven cents upon each one hundred dollars assessed valuation of said property. A tax of seven cents was levied by the Board of Supervisors for the fiscal year 1917-18.

Here we find a distinct limitation by the Charter as to the amount of money that may be raised by taxation for the Park Fund.

Referring to Article III, Chapter II, Section 2 of the Charter we find the different funds authorized by the Charter designated, and it is stated that the moneys in these funds "shall not be used for any purpose other than that for which the same were raised except as otherwise provided in this Charter."

Then, "The General Fund shall consist of moneys received into the treasury and not specially appropriated to any other fund."

The section continues: "The Park Fund shall consist of the moneys annually appropriated to said Fund by virtue of the tax provided for in this Charter for the maintenance, preservation and improvement of the parks, squares, avenues and public grounds of the City and County; of all moneys accruing from rents of buildings under the jurisdiction of the Park Commissioners; and of all moneys coming into the hands of said Commissioners whether from donations or otherwise. Out of said Fund shall be paid all the expenses of every kind for the preservation, maintenance and improvement of the parks, squares, avenues and public grounds of the City and County."

Then follows a similar provision with reference to the Library Fund. Then other sections defining other funds.

It will appear plain from the above that the Park Fund, so far as taxation upon property in this City and County is concerned, can consist only of taxes provided for in Section 11 of Article XIV. In addition, the fund consists of moneys accruing from rents, etc., and all donations

and finally moneys coming into the hands of said Commissioners "otherwise" than from donations. I do not believe that this expression "otherwise" would include an appropriation from the General Fund. It would appear plain from Section 11 of Article XIV that so much of the Park Fund as is raised by taxation is limited to the seven cents which has already been levied and that in this section 2 above there is a clear distinction made between such tax moneys and other sources of revenue. As an instance of one other such source of revenue, I refer you to an opinion of my predecessor, Mr. Long, who distinguished money received from the State Highway taxes on automobiles, which money comes from the State, from money received from taxes levied by San Francisco on property located in this city. (Opinions City Attorney Long, 1912-16, p. 940.) I also refer you to an opinion by Mr. Long in the same volume, page 775, in which the Board of Supervisors requested advice of Mr. Long as to the power of the Supervisors to appropriate money for the Park Commissioners in excess of the seven cents limit.

Mr. Long advised that there was no such power, on account of the above sections of the Charter. At page 776 Mr. Long says:

"These sections place a limitation upon the amount of taxes that may be levied and the amount of money that may be appropriated for park purposes by your Honorable Board. Section 11 of Article XIV is mandatory and prohibitory. Under it your Honorable Board must annually levy a tax to provide all necessary money for park purposes. This tax must not be less than five cents on the hundred; it cannot exceed seven cents.

"By Article III, Chapter II, Section 2, the Park Fund is made to consist of the amount raised by this tax, together with certain money from other sources. That section then provides that 'out of said fund shall be paid all the expenses of every kind' for park purposes. The effect of this is clearly to limit your Honorable Board in the appropriation of funds for park purposes to the amount realized by the tax levy for park purposes.

"I therefore advise: 1. That your Honorable Board cannot legally levy a tax of more than seven cents on the one hundred dollars for park purposes; 2. That in no case can money be appropriated for park purposes in excess of the amount realized by the tax for park purposes."

You are therefore respectfully advised that the attempted appropriation of \$16,000 recently made by the

Board of Supervisors is in conflict with the above Charter provisions.

Respectfully,

GEORGE LULL,
City Attorney.
By J. F. ENGLISH,
Assistant City Attorney.

Veto Sustained.

The question being, "Shall the Resolution finally pass notwithstanding the objection of his Honor the Mayor?" the roll was called with the following result:

Aye—Supervisor Power—1.

Noes—Supervisors Deasy, Hilmer, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Suhr, Walsh, Welch—12.

Absent—Supervisors Brandon, Gallagher, Hayden, Nolan, Wolfe—5.

Whereupon, the chair declared the resolution defeated and the Mayor's veto sustained.

SPECIAL ORDER, 3 P. M.

Action Deferred.

The following Bill, heretofore presented by Supervisor Power and laid over until this meeting, was again taken up and on motion, *laid over three weeks* and made a Special Order of Business for 3 p. m. The Clerk was instructed to obtain City Attorney's opinion as to legality of the ordinance:

Change of Grade Ordinance.

Bill No. —, Ordinance No. — (New Series), as follows:

Providing a method of procedure for the change of street grades, for the doing of any kind of street work in connection therewith; for the payment of the costs, expenses and damages thereof; for the imposition of assessments upon land in private ownership to cover such costs, and for the collection of such assessments; this ordinance to be known as the "Change of Grade Ordinance."

This ordinance was framed by a committee appointed in accordance with a resolution of this Board and in anticipation that the regrading of Rincon Hill might be provided for.

The principal features embodied in the ordinance may be summarized as follows:

1. A method by which the City may acquire the right to remove material from lots in private ownership, in lieu of paying damages to such lots resulting from the lowering of the street grade.

2. Provisions that streets may be excavated in one district and elevated in another in order that the material excavated can be utilized to its full value, and the greatest possible benefits created. One proceeding can combine both processes, viz.: a cut and a fill and the streets affected may be in different portions of the City.

3. The creation of two or more as-

essment districts as may be required to share the cost of the work.

4. A classification of benefits and districts into "Primary" and "Secondary." Primary districts are those which will be primarily benefited, *i. e.*, where the lots of land front on streets to be excavated and filled, and receiving a direct benefit of the work of improvement. Assessments in primary districts are based on the increase of the land value resulting from the improvement. Secondary districts are those wherein the benefits arise from the work as a whole. Several of such districts may be created according to the degree of resulting benefits. Assessments in secondary districts are to be apportioned to the lots according to the assessed value. This method, it is believed, is the most equitable in view of the contemplated project, and is less objectionable than the front foot or superficial area method.

5. Imposition of assessments annually for a period of ten years, each annual assessment to be paid in two installments.

6. Provisions by which any assessment may be anticipated and bonds issued to represent the same. Interest requirements are to be estimated in advance and included in the assessment.

8. A method of ascertaining and awarding damages, also in advance of the assessment.

9. Provisions for contesting claims for damages and testing the legality of the proceedings with limitations as to the time in which actions may be commenced.

Financial Report, December 15, 1917.

The following report was presented by Supervisor Power, read by the Clerk and ordered *spread in the Journal*:

San Francisco, December 17, 1917.

To the Honorable Board of Supervisors, City and County of San Francisco:

Gentlemen:

Your Finance Committee submits herewith a financial statement as of December 15, 1917.

In view of the apparent misunderstanding as to the exact status of the General Fund, both on the part of the members of the Board and the public in general, we deem it advisable to submit this report at this time rather than to wait until December 31, 1917.

We feel certain that with the submission of this report many of the wild and uncalled for statements regarding the City's funds will cease.

It is well for the Board to know that a great majority of the funds that show deficits are absolutely beyond our control. Many are caused by new State laws, others by the courts, such as jury fees and grand jury expenses;

others depend upon revenues from various sources which are fast fading away.

As a matter of fact, not more than \$10,000 of the total of \$85,000 is chargeable to funds over which we, or the Board, have some control.

You will note that, as yet, the Auditor has not found it necessary to transfer the \$60,000, appropriated for teachers' salaries, from the General Fund to the Common School Fund. This is due to the fact that, after paying the increases in salaries to the teachers for the first four months of the fiscal year, the Auditor found that there was a surplus of approximately \$6,000 remaining in the Teachers' Salary Account. Said sum, or such portion of the \$60,000 as is needed, will be transferred by the Auditor to the Common School Fund at such time as he deems it necessary.

The other appropriations allowed from the General Fund will be allowed by the Auditor when he satisfies himself the receipts will be as estimated from various sources.

Very truly yours,

JAMES E. POWER,

Chairman.

ANDREW J. GALLAGHER.

**Communication From Supervisor Power,
Chairman of the Finance Committee.**

Whereupon, the following communication was presented by Supervisor Power, read, ordered *filed and spread in the Journal*:

San Francisco, December 17, 1917.
Honorable Board of Supervisors:
Gentlemen:

With the filing of the financial statement by your Finance Committee, the undersigned, who has acted as chairman of said Committee for the past two years, deems this time opportune to advise the members of the Board, and the citizens of San Francisco, that he has no further desire to act on said Committee. In fact, my first thought was, that with the filing of this report, I would resign from said Committee, so that it would be definitely understood by the members that I no longer desired to serve.

I regret exceedingly the lack of support given the Committee, and especially the chairman. Many recommendations, which we knew were for the best interests of San Francisco have been made, but unfortunately not supported sufficiently to have been carried to a successful conclusion.

The lack of courtesy towards me I felt keenly, but the unjust criticisms from departments and others engineered for political purposes, I have regretted more so.

This Committee has endeavored to impress upon the Board and the various departments, the necessity for conserving funds and conducting the city's affairs more economically. No better time could be chosen for this work than now, when everyone in the nation is asked to conserve and make sacrifices. The necessity for this economy will be brought forcibly to the attention of the Board when the next budget is made up, because I predict now that, unless funds are conserved, that can and should be, the city will be confronted with at least a \$2.40 tax rate, and the following year, as a result of Hetch Hetchy redemptions, etc., the rate will be close to \$2.60.

The future will undoubtedly convince the Board that the judgment and foresight used by the writer was well founded.

I am deeply grateful to the people of San Francisco for approving my policy on said Committee, and I regret that I cannot express that same gratitude to the majority of my colleagues for their support.

Very respectfully yours,

JAMES E. POWER,
Chairman Finance Committee.
Statement of Mayor.

His Honor Mayor Rolph took exception to the clause in Supervisor Power's letter "engineered by heads of departments for political purposes."

He asked the names of the heads of the departments so charged and requested that they be heard in the matter. He denied the statement quoted absolutely. "Any trouble with heads of departments," he said, "was not for political effect, but for the purpose of obtaining sufficient money for their departments."

UNFINISHED BUSINESS.

Bill No. 4774, Ordinance No. 4438 (New Series), as follows:

Authorizing and directing the City Attorney to consent to judgment in eminent domain proceedings to be brought by the United States Government to acquire a certain strip of land for military right of way uses, and the Mayor to execute a contract for quiet possession of the same, in consideration of the conveyance by the United States to the Regents of the University of California of certain lands for the benefit of the people of San Francisco and the general public.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. There having been negotiations pending between the United States Government and the City and County of San Francisco, looking to the transfer by the United States Government to the Regents of the University of California of that portion of the Military Reservation of the Presidio of San Francisco on which the Palace of Fine Arts is located, for the benefit of the people of the City and County of San Francisco and the public generally, in return for a transfer by the said City and County of San Francisco to the said United States Government, of a certain right of way for railroad purposes, leading generally along a route commencing at the westerly portal of the Fort

Mason tunnel and ending at the Presidio line, and it being to the interests of the people of the City and County of San Francisco to effect such an exchange with the United States Government, the City Attorney is hereby authorized and directed to consent to a judgment in eminent domain being rendered and entered against the City and County of San Francisco, in the event of eminent domain proceedings being instituted by the United States Government, to condemn all right, title and interest which the said City and County may have in that certain strip of land hereinafter described for the purpose of constructing or operating, or providing for the construction or operation thereon of a railroad leading to the easterly boundary line of the said Presidio Military Reservation for use in connection with said Military Reservation.

In any such judgment in eminent domain as described herein, there shall be reserved to the City and County of San Francisco the right and privilege of using for street purposes the entire remainder of the public streets of the City and County of San Francisco through which the hereinafter described strip of land is located and also to use said strip of land for such public street purposes in so far as such use will not interfere with the use thereof by the United States Government for its railroad purposes which it is intended to be finally granted to the United States Government. In addition, there shall be included in any such judgment, a proviso that if at any time in the future the property so acquired for such railroad purposes shall cease to be used for the purposes for which acquired, then all right and title thereto shall revert to the City and County of San Francisco.

The consideration for the consent by the city to such a judgment being entered against the city in eminent domain proceedings and to the execution by the city of its warranty to quiet possession herein described is to be a conveyance by the Secretary of War of the United States, he being first duly authorized so to do by Congress of the United States to the Regents of the University of California, their successors and assigns for art,

educational and park purposes and for the benefit of the people of the City and County of San Francisco and the public generally, of that portion of the Military Reservation of the Presidio of San Francisco in the City and County of San Francisco on which the Palace of Fine Arts is located included within metes and bounds described as follows, namely:

And further, the City and County of San Francisco hereby consents that in such conveyance there may be included the proviso that if at any time in the future, the property so conveyed to the said Regents shall cease to be used for the purposes for which conveyed, then all right and title thereto shall revert to the United States.

The following is a full and particular description of the said strip of land to be so acquired by the United States Government from the said City and County of San Francisco in said eminent domain proceedings:

Mayor's Veto.

School Construction.

The following communication was presented, read by the Clerk, ordered spread in the Journal and laid over one week:

To the Honorable Board of Supervisors, City Hall, San Francisco.

Gentlemen: Herewith I return to you without my approval Bill No. 4771, Ordinance No. 4413 (New Series), and, also, Bill No. 4472, Ordinance No. 4414 (New Series), finally passed by your Honorable Board on the 10th day of December, 1917. The reasons for my disapproval of the same are as follows:

On examination of Section 1, Chapter VI, Article VII of the Charter, I find that the Board of Education is vested with the power therein to make a requisition upon the Board of Public Works for plans, specifications and estimates for a new school house, specifying the number of classrooms needed, the location of the proposed school house, the date on which it should be completed, the amount of money in the school fund available for the purpose and such other information as will enable the Board of Public Works to prepare the necessary plans, specifications and estimates of cost for such school house.

The section further provides for the approval by the Board of Education of said plans and the return of the same to the Board of Public Works, which shall proceed without delay to have such school house constructed and completed in accordance therewith.

The ordinances returned to you contain an authorization from your Honorable Board to the Board of Public Works to prepare plans and specifications for and to enter into con-

tracts for the construction of two school houses, viz.: the High School of Commerce, Fell and Franklin streets, and the Richmond School, Nineteenth avenue, whereas, as above pointed out, the section of the Charter hereinabove referred to, vests in the Board of Education the power of making requisition upon the Board of Public Works for such plans and specifications and the same objections apply to those portions of the ordinances which authorize and instruct the Board of Public Works to enter into contracts for the construction of schools, such power being lodged in the Board of Education and not in the Board of Supervisors.

In my opinion there should be set aside and appropriated, directly to the Board of Education, a sum of money sufficient for the purpose of defraying the cost and expense of plans and specifications for school houses to be erected and repaired under the recent authorization for the issuance of bonds; said money to be expended by the Board of Education in accordance with the provisions of Section 1, Chapter VI, Article VII of the Charter.

Very truly yours,
JAMES ROLPH, JR.,
Mayor.

Restoration of Cities of France and Belgium.

Supervisor Mulvihill presented:

Resolution No. 15186 (New Series), as follows:

Whereas, a great patriotic movement has been launched in the United States to the end that the cities and towns and hamlets of our country each help toward the rehabilitation and restoration of a city, town or hamlet in those portions of France and Belgium laid waste by ruthless war; and

Whereas, the Mayor of San Francisco has expressed by cablegram on Christmas day to the President of the French Republic the sympathy of the citizens of San Francisco toward their homeless brothers in France, and good cheer to the brave soldiers fighting on the battlefield; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco hereby endorses the Mayor's

message to the President of France; that it regards with deep interest the suggestion to help rehabilitate the French and Belgian cities and towns that have been stricken, and that it will be glad at all times to receive further information and data bearing upon the progress and possibilities of this most laudable plan.

Ninety days' time from and after January 3, 1918, within which to complete contract for improvement by special treatment the crossings of Falcon and Caselli avenues and Eagle street.

Mayor's Veto.

School Construction.

The following communication heretofore presented by his Honor the Mayor and *laid over one week* was taken up:

To the Honorable Board of Supervisors, City Hall, San Francisco.

Gentlemen: Herewith I return to you without my approval Bill No. 4771, Ordinance No. 4413 (New Series), and, also, Bill No. 4472, Ordinance No. 4414 (New Series), finally passed by your Honorable Board on the 10th day of December, 1917. The reasons for my disapproval of the same are as follows:

On examination of Section 1, Chap-

ter VI, Article VII of the Charter, I find that the Board of Education is vested with the power therein to make a requisition upon the Board of Public Works for plans, specifications and estimates for a new school house, specifying the number of classrooms needed, the location of the proposed school house, the date on which it should be completed, the amount of money in the school fund available for the purpose and such other information as will enable the Board of Public Works to prepare the necessary plans, specifications and estimates of cost for such school house.

The section further provides for the approval by the Board of Education of said plans and the return of the same to the Board of Public Works, which shall proceed without delay to have such school house constructed and completed in accordance therewith.

The ordinances returned to you contain an authorization from your Honorable Board to the Board of Public Works to prepare plans and specifications for and to enter into contracts for the construction of two school houses, viz.: the High School of Commerce, Fell and Franklin streets, and the Richmond School, Nineteenth avenue, whereas, as above pointed out, the section of the Charter hereinabove referred to, vests in the Board of Education the power of making requisition upon the Board of Public Works for such plans and specifications and the same objections apply to those portions of the ordinances which authorize and instruct the Board of Public Works to enter into contracts for the construction of schools, such power being lodged in the Board of Education and not in the Board of Supervisors.

In my opinion there should be set aside and appropriated, directly to the Board of Education, a sum of money sufficient for the purpose of defraying the cost and expense of plans and specifications for school houses to be erected and repaired under the recent authorization for the issuance of bonds; said money to be expended by the Board of Education in accordance with the provisions of

Section 1, Chapter VI, Article VII of the Charter.

Very truly yours,
JAMES ROLPH, JR.,
Mayor.

Veto Sustained.

The question being "Shall the ordinances finally pass notwithstanding the objections of his Honor the Mayor?" the Roll was called with the following result:

Noes—Supervisors Brandon, Deasy, Hayden, Hilmer, Hocks, Hynes, Kortick, Lahaney, McLeran, Mulvihill, Nelson, Nolan, Power, Suhr, Walsh, Welch—16.

Absent—Supervisors Gallagher, Wolfe—2.
